Professional Background

Level II Technician - Team Industrial Services. Charlotte, NC - 2010 to Present

Field Technician using MT, PT and UT NDE inspection techniques for generating field reports, 3rd party inspections and auditing.

- Inspected more than 600,000 welds in 4 month period while working with the engineers to ensure the continued quality of driveshaft's produced for 5 manufacturer's and more than 30 automobile models.
- Successfully created field reports for the Nuclear, Gas, Pipeline and Manufacturing Industries.
- Completed company requirements for 3 Level II designations in the first year with the company.

NDI Supervisor - USS Bataan. Norfolk, VA - 2006 to 2010

Inspected and oversaw repairs and maintenance to equipment, vehicles, and facilities to enforce standards for safety, efficiency, cleanliness, and appearance.

Interpreted specifications, blueprints, and job orders, and constructed templates and laid out reference points for workers.

- Managed the Aviation NDT Program through 3 national audits, easily maintaining a score of 'Outstanding'.
- Assistant Radiation Safety Officer for 2 years. Maintained Unit certification with a notation 'No Discrepancies Noted' on last RASO Inspection Certification.
- Known for the high degree of expertise in NDT techniques MT, UT, PT, ET, VT and RT.

NDT Technician - NAVTESTWINGLANT. Patuxent River, MD - 2003 to 2006

Analyzed and interpreted blueprints, sample data, and other materials to determine, change, and measure specifications and inspection and testing procedures.

- Received Award for more than 16,000 NDT inspections on 23 different type/model aircraft.
- Highly involved in the research and development of new NDT equipment for UT, ET, MT, RT and VT inspections as well as onsite testing of multiple prototypes.

NDT Technician - USS Essex. Sasebo, Japan - 2000 to 2003

Tested and measured finished products, components, and assemblies for functioning, operation, accuracy, and assembly to verify adherence to functional specifications and adjusted process and assembly equipment to meet standards.

- Inspected and monitored 48 aircraft for service, stress, corrosion, mechanical defects and problems to maintain 98% mission capability and 100% safety rating for 3 years.
- Received 'Outstanding' classification for Aviation NDT Program as well as 4 more Aviation programs from 3 separate national and international assessment teams.

Military Education

NDI Technician - Pensacola, FL. 2000

Airframe Mechanic Journeyman License - USMAP. 2005
